JOB EXPERIENCE

SEPTEMBER 2015 - MARCH 2016
Technologies

6D Global

Technology Trainee/Intern

6D Global Technologies Web & Development Solutions is an American company that specialises in web content management & digital publishing. I was one of two interns employed by the company during its initial expansion into Ireland. My role was on a flexitime basis in which I worked one day a week in their Dublin office & another from home. Over the seven months I was employed by the company the duties of my role varied but one of my main responsibilities involved familiarising myself with the company's Web Development Platform & ensuring tutorial presentations provided to clients adhered to the products functionality.

During my time with 6D Global Technologies I used the following software subscriptions;

- Adobe Experience Manager (AEM)
- GitHub
- Maven
